Other Infrared Devices

IrDA devices like printers and other future IrDA devices. Besides, we provide development technical support for special IR devices

Product Specifications

Operating System support

Microsoft Windows 98, 98SE, ME, 2000, XP

Infrared Standard

IrDA standards compliant, Physical Layer 1.0,1.1

Infrared Speed

SIR speed: 115.2K, 57.6K, 38.4K, 19.2K, 9.6K

Infrared Effective Distance

1 cm ~ 100 cm under normal environment

Infrared Effective Angle

30-degree cone angle area

Dimension

80 mm x 42 mm x 30 mm

Operating Temperature

0° C ~ 50° C

Software Included

Handset Manager for infrared-capable mobile phones

USB Specification

USB specification version 1.1 compliant

Maximum Transfer Speed

USB connection: 12M bps
Mobile Phone Connection: 115.2K bps

Regulatory Compliance

FCC approved, CE marking, C-Tick

Packing Contents

MA-620 USB Infrared Adapter and Device Driver.
A Handset Manager software CD

MA-620 upgrades your desktop and works as a wireless Cable to mobile devices

Nowadays more and more mobile devices like Mobile Phones, PDAs, Digital Still Cameras, and Notebook PCs have built-in IrDA Infrared Port. However, by current system standard, most desktop PCs don't feature an Infrared Port. Therefore, it's ideal to upgrade desktop PC with a standard IrDA port so as to enable easy wireless data transfer with different devices.

By utilizing **MA-620 USB Infrared Adapter**, users can avoid the hassles to change different cables for different devices as long as they meet the IrDA standard and provide software for PCs to connect via IrDA port. It's a piece of cake to sync with PDAs, update cellular phonebook, transfer photo from DC, share/transmit/back up files between PC and notebook, or use handset as a wireless modem to surf the internet.

Why USB?

MA-620 USB Infrared Adapter is easy to install, user friendly, convenient and fast. There is no need to worry about the occupied COM port and driver confliction.

As an universal USB product, **MA-620 Infrared Adapter** offers USB Plug and Play convenience and enables wireless Infrared connectivity.

Total solution for mobile phone users

The **MA-620 Infrared Adapter** retail package contains a high quality USB Infrared Adapter and a **Handset Manager** software CD. For infrared-equipped mobile phone users, the Handset Manager plus the MA-620 is an ideal solution to optimise your mobile phones with these features:

1. Edit and backup personal phonebook on the PC and transfer it to the handset.
2. Synchronize phonebook with Outlook Contacts
3. Synchronize the calendar with Outlook.
4. Design and change the personal Ring Tone, Operator Logo, Caller Group Graphics, Start-up Logo of the handset.
5. Edit and send the SMS short messages in text or picture format.
6. Support more than 10 languages:
Arabic, Chinese (Taiwan), Chinese (China), Czech and Slavic Languages, German, Dutch, English, French, Italian, Russian, Spanish.

The **Handset Manager** currently supports the most popular GSM phones and continues to support even more phones at full speed!! Please keep a close eye on our website!
